BIHSNAM - *Bio-Inspired Hierarchical Super Nanomaterials* (2012-2016)

ERC Starting Grant project - Principal Investigator: Prof. Nicola Maria Pugno

Summary of the scientific outputs

	2012	*2013*	*2014*	*2015*	*2016*	total
number of papers	18	25	19	35	44	**141**
max authors	13	7	12	64	13	**64**
min authors	2	1	1	2	3	**1**
average authors	3.5	3.6	4.4	6.0	5.8	**4.7**
max IF	36.280	35.749	15.409	11.329	31.083	**36.280**
min IF	0.528	0.701	1.293	0.000	1.656	**0.000**
average IF	5.710	3.779	3.993	3.039	5.298	**4.345**
cumulative IF	102.780	94.475	75.867	106.365	233.112	**612.599**
citations of the papers	660	535	209	728	107	**2239**
citations of the year	603	792	836	1036	1481	**4748**

* For each year, the Impact Factor (IF) value for a given journal is taken from the previous year. For the journals with no data an IF equal to 0 is assigned. Source: http://www.scijournal.org.

** The value of the citations of the papers refers to the total citations received by the papers published the considered year, updated to February 27th, 2017. The citations of the year, instead, refer to the total citations received each year by all the papers published until the considered year. Source: https://scholar.google.com.

*** The papers published in 2017, but submitted and accepted for publication within the project, are not shown. Number of papers: 5, max authors: 6, min authors: 3, average authors: 4.4, max IF: 6.198, min IF: 0.000, average IF: 2.520, cumulative IF: 12.600, citations of the papers: 1, citations of the year: 280.
